What do you estimate your gross income for 2018?

Do you expect to owe additional taxes?

How much will you pay with extension (if applicable)?

Important Information: All tax is due with the extension. IRS will impose late payment penalties and interest on any underpayment from the 1040 due date until the tax is paid in full.

If you make estimated tax payments, the 1st quarter 2019 payment can be made with extension. This will serve as a buffer if there is additional tax due for 2018. If there is an overpayment it can be applied to the 2019 payment.

If you are making an extension payment by check - the check should be made to "US Treasury".

Payment can be made via IRS Direct Pay www.irs.gov/payments/direct-pay

Mark as extension payment.
